M324R & M319R for use with Slimceil channel found on page 15
 M319R meets the BCA2012 static deflection criteria

* This is the distance between the concrete substrate and the back face of the plasterboard lining. Example: for a 85mm overall ceiling cavity using one layer of 13mm plasterboard, use a M324R-4 Ceiling Bracket (85mm - 13mm = 72mm [bracket is adjustable 53-76mm]).
